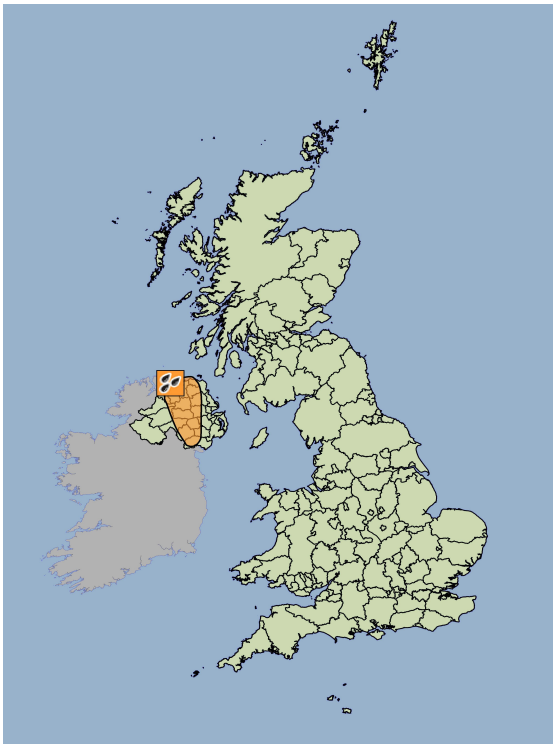
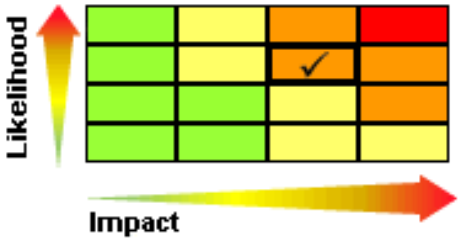
National Severe Weather Warning Service





Chief Forecasters Assessment
A developing frontal system will move slowly east across Northern Ireland during this afternoon bringing with it a band of heavy rain. Rainfall totals through the whole of the day will reach 20-30 mm widely with as much as 50 mm in a few places within the Amber warning area.

The Met Office have issued an **Amber Warning** of **Rain**

Valid from **14:30 on Thu, 13th Nov 2014** until **18:00 on Thu, 13th Nov 2014**

Rain will continue to be heavy especially through central parts of Northern Ireland on Thursday afternoon.

The public should be prepared for flooding as much of this rain falls on already saturated ground with elevated river levels. A slow improvement will occur from the south during the evening.

This warning should be viewed alongside the wider Yellow Warning area.
